# Who We Train

Consider these groups when deciding who should take our Child Safeguarding Awareness Course:

## SUPPORT STAFF

Our course is primarily intended for the learning needs and professional roles of this group.

- Cleaners
- Facilities
- Security guards
- Gardeners
- Food services
- Office staff
- Bus drivers and monitors
- Contractors

## OTHER ADULTS

Our course and its multiple languages are also ideally suited for this complementary group.

- Volunteers
- Chaperones
- Excursion / Field trip operators
- Long term visitors
- Parents
- Domestic staff (Nannies, drivers, etc.)

## ACADEMIC SUPPORT\*

Our course content and language offerings are a good starting point in Child Protection training for this group.

- Teaching assistants
- Music teachers
- Enrichment providers
- Coaches
- Tutors
- Nurses

## TEACHERS & LEADERS\*

Our course can be used as an introduction or as a language-specific supplement for this group, but it is not sufficient Child Protection training for them.

- Teachers
- School leaders
- Learning support
- Board members
- Counsellors

\* Since these learners have regular interactions with students, further training and job specific content will be needed.
